DAILY PACIFIC NEWS.

J. WINCHESTER, EDITOR.

Monday, May 6, 1850.

Our Advertising Columns.

If any thing were wanting to show the energy and activity which pervades all classes of our merchants and business men, we need only point to the advertising columns of this day's paper for ample evidence of the fact. The new announcements to-day occupy over six columns, numbering nearly a hundred in all, and embracing every kind of matter, and every description of goods and property which are to be found in the city. We hesitate not to say that the Pacific News exhibits a larger amount of advertising patronage than has ever before been given in a single number of a public journal in California. This is the true secret of making money—to advertise freely: and our merchants are aware enough to be aware of it. We do not perceive that the "vermillion edict" to "STOP MY PAPER" is likely to be attended by any very disastrous consequences.

Law's New Line of Ocean Steamers.

The arrival of the Steamer Isthmus in our waters is the first tangible demonstration towards the establishment of a new line of ocean steamers between New York and San Francisco, so far at least as that portion of it to and from Panama is concerned. The immense tide of immigration from the Atlantic States absolutely requires that the facilities of travel should be increased; and the interests of the people as certainly render it necessary that there should be more than one line. Though probably but few cases are well founded, there still have been many complaints on the part of passengers by the present line of steamers in regard to their over-crowded condition, and lack of attention to personal comforts; and such will always be the case when there is no competition to put the managers of public conveyances upon their "good behavior."

The present enterprise, known as Law's Line, will exercise a beneficial effect, not only upon rates of passage, which are much too high, but also in regard to the accommodations. Mr. Law is well known to the public of the United States for his indomitable enterprise, and it is fortunate for the interests of California that such a man has entered into the great carrying business between here and Panama.

The steamers composing this line are the Isthmus, now here, and the Columbus, Republic and Antelope, all of which are expected to arrive in this harbor in from thirty to fifty days. These fine vessels will connect on the other side with the steamers Georgia, Ohio and Falcon, and thus complete the line between the two empire cities of the North American continent.

The business and management of the affairs of the line in San Francisco are in the hands of OLIVER CHARLICK, Esq., as general agent and superintendent. Mr. C. is a New Yorker, a gentleman well qualified for the position, and one who has often been honored with the confidence of the people of that emporium of wealth and enterprise. We are not aware that a day is yet named for the departure of the Isthmus, but we wish her and the line of which she forms a part the fullest measure of success.

Noble Conduct.—Where so many instances of noble hearted devotion were shown, and all performed their duty, it would be invidious to particularize; yet we cannot refrain from speaking of a case of two related to us by an eyewitness. When the conflagration was gradually drawing a cordon around the banking house of Burgoyne & Co., there suddenly appeared on the scene a company of hardy tars, headed by their captain, who formed a line about the flame-beleaguered house, and with a bravery and daring characteristic of the generous sailor worked both within and without for its preservation, and never left the ground till safety was assured. The name of the captain and crew are unknown to us, but we were told that they were friends of this house, who, at the earliest alarm of fire had come on shore to tender their services, and thus nobly evinced their devotion.

Among many others whom we remarked as conspicuous in their efforts to be useful at the fire was the Rev. T. Dwight Hunt, of the First Congregational Church in this city.

CHAMBER OF COMMERCE.—The merchants composing this body meet this evening in the rear building in Sacramento street, one block below Montgomery. Officers are to be elected, and a punctual and general attendance is requested.

An Incident of the Fire.

While the conflagration at an early hour on Saturday morning was raging at its highest point, and the flames were leaping from building to building, as if in very joyousness at its own power, an incident occurred which attracted the notice and plaudits of the immense concourse who observed it.

As the flames spread down Washington street on the south side, passing over Dunbar's little brick box, and catching from house-top to house-top, it was not long ere the building known as the Baltimore Restaurant, was enveloped in a sheet of vivid fire, wreathing, roaring and crackling as in a vortex. On the top of this house, in front was an elevated flag staff at the head of which floated gracefully "the Star Spangled Banner." Soon the flames caught the staff, and shooting up in fitful columns, soon severed the halyards aloof and aloft, when the banner, untouched by the element, arose in the air and was carried to a considerable height by the rarified currents. The multitude who had been watching it for some time, when they saw the glorious folds of our country's flag unharmed in the conflict, soar away in the breeze, rent the air with their loud huzzas. It was a pleasing incident when all around was ruin and dismay.

THE BURNED DISTRICT.—During the fire on Saturday morning, before the Wright Hall, corner of Washington and Kearney streets, was near demolished, the proprietor had purchased a frame building to supply its place, and a part of the lumber was hauled on the ground before the building had quite burned down.

Juan Cima, on Washington street, on yesterday, had a building far progressed towards completion. The St. Charles, formerly north side of the square, on Washington street, had a representative, in the form of a canvass house, in full blast, last evening.

J. W. McCabe & Co., formerly of the El Dorado, corner of Washington street and the square, have taken the Bryant House, at a rent of \$6000 per month.

A point where the further progress of the fire was most earnestly as well as successfully contested, was at the Washington Market, corner of Jackson and Kearney streets. Among those who were conspicuous in their efforts we observed Mr. Thomas Vogan, who deserves great credit. Indeed a host did noble duty in that hour, and our own salvation was secured by their exertions.

JAMES KING, OF WILLIAM.—We are informed that, owing to the admirable prudential arrangements which have always been observed in the banking house of Mr. King, his loss did not amount to a single dollar. Approaching that fire might occur, at any time, Mr. King had his funds, and books and papers in such a condition that they could be removed at the slightest notice. When the fire had reached Leroy Buildings in which his office was situated, a number of Mr. King's friends, as well as others, laboring men, whom he did not personally know, came and offered their services to save his property; and though gentlemen sought to engage them to assist in securing their goods in other sections, not a man could be moved till the treasure and effects had been removed to his brother's, in another part of the city. Mr. King desires us to express his thanks to the individuals who thus aided him, and refused all compensation.

OURSELVES.—To Adams & Co., Express Agents, and also to Alderman Stuart, as well as to many other friends, we return our sincere thanks for their interest in our behalf, at a time when the Pacific News Building was in imminent peril. Both of the above named gentlemen offered us a house in which to continue our business, at a moment when it was thought our office must fall a prey to the flames. It is due to the gentlemen connected with our establishment, to say they have our warmest gratitude for the energy they displayed in removing the printing materials of the News to a place of safety, at a time when the fire seemed ready to destroy the premises.

Our building was twice on fire from sparks and flakes falling upon the roof; but the foresight of Mr. Norcross, our book-keeper, prevented any damage in that quarter, by stationing himself with the means of extinguishing them as they fell.

ARRIVAL OF THE ISTHMUS.—This steamer came to anchor in our harbor about noon yesterday in 24 days from Panama, which port she left on 6th of April. The Isthmus brought 24 passengers, several of them ladies, the names of whom will be found on the first page. No later dates were received, nor could we learn of any intelligence of importance.

AT HAND.—When the Isthmus left Panama, the Sarah Sands was "firing up" to start, and she may therefore be looked for to-day. We hope she'll come, for her presence will be very grateful to us.

Additional Particulars of the Fire.

The short time intervening between the subduing of the fire and the hour (one o'clock) of going to press, necessarily prevented a statement in detail of the sufferers and their losses, in Saturday's paper. Indeed, up to this time, with the most diligent exertions, we have not obtained anything like all the names of those who have thus suddenly found themselves without houses, goods, and in some instances of wearing apparel. The amount of property destroyed belonging to the different firms and individuals have, in a majority of instances, been obtained from the individuals themselves, and where this was impossible, such amounts are stated as those known by the individuals and their business deemed a fair estimate. We begin with those on Kearney street.

four buildings, 10,000. Correa, two houses, 12,000. Dodero 6,000. The lessee of the Dupont Hotel about \$2,000. The above is by no means a full record of those who have reason to remember Saturday last as a day of gloom and disaster. Not less than from two hundred to two hundred and fifty houses were burnt, and as we heard remarked, more property destroyed than could be in any other city in the world within an equal space.

SAVES THAT ARE SALES.—The terrible calamity which has befallen our city, involving in heavy losses or utter ruin a large number of the most worthy and enterprising citizens, furnishes matter for very serious reflection, and particularly as to the means by which such wide spread disasters may be avoided or at least partially obviated. Among the monuments that stand out in bold relief, as landmarks amid a scene of desolation, conspicuous is the large brick Banking House of Burgoyne & Co., corner of Montgomery and Washington streets. Again did this building prove a barrier to the spread of the fire, and its burnt and blackened walls show with what fierceness the flames raged around it. With the exception of the small fire-proof structure of Dunbar & Co., it is the only building now standing in the entire block, and is entirely unharmed.

Burgoyne & Co. had just placed in their house an immense fire proof bank vault, manufactured in New York, which was only completed the day previous to the fire. It is the only one of the kind in this country, and is an entire protection against both fire and burglars, being lined throughout with heavy iron. Had their banking house unfortunately been burned, this gigantic safe would have defied the utmost power of the devouring element. Every merchant ought to have a Salamander, if not a similar structure to that of Burgoyne & Co.

THE ALTA CALIFORNIA.—The loss of the proprietors of the Alta by the fire is a heavy one; but with the enterprise and energy possessed by them, they will soon recover from its effects. We are gratified in knowing that they saved nearly all of their materials and presses. Among their losses is one that must be very seriously felt, though involving no considerable pecuniary amount, and that is the entire destruction of the files of their journal. These were put in an old fashioned safe for safety; but upon opening the same on Saturday evening it was found that little else than the charred remains were inside.

The office of the Alta is now in the Custom House, Clay street. We understand a new and elegant building of brick will soon arise from the ashes of the old office. We extend to them renewed wishes for their future success.

THE OFFICIAL CANVASS.—We are indebted to Gen. Addison, Clerk of the county, for an abstract of the official vote published in this number. The reader will observe that the names of democrats are in Roman letter, the whigs in *italic*, and the independents in *small caps*. The highest vote given to any candidate was in favor of Frank Tilford, Esq., City Recorder, a democrat, and the next for Charles Minton, whig. Both these gentlemen are popular and highly esteemed in the community.

SUPERIOR COURT OF SAN FRANCISCO.—This Court, of which Gen. P. A. Morse is the Chief Justice, will be opened to-day in the new City Hall, late Graham House. The room is spacious, and has been fitted up not only with a great degree of taste and elegance, but for the accommodation of the Bar, Jury, and the officers of the Court, as well as the public. We shall speak more particularly of the arrangements hereafter.

MILITARY.—We understand that Maj. Gen. J. H. Bean, of the Fourth Military Division of the State, has appointed on his staff George H. Hooper, Assistant Adjutant General, and Wm. H. Davis and Santiago E. Arguilla, Aids.

Mr. F. Delaert Blyth has removed from the foot of Washington street to 244 Montgomery street, west side, where he is prepared with a large assortment of goods to supply customers. See his advertisement on the outside of to-day's paper.

The Mayor, together with the Board of Aldermen and Assistant Aldermen were sworn into office on Saturday last. We hope the unpropitious day of their inauguration is no foreshadowing of their administration.

AN ACT
FOR THE BETTER REGULATION OF THE
MINES AND THE GOVERNMENT OF FOR-
EIGN MINERS.

The People of the State of California,
represented in Senate and Assembly,
do enact as follows:

Sec. 1. No person who is not a native
or naturalized citizen of the United
States, or who may not have become a
citizen under the treaty of Guadalupe
Hidalgo, (all native California Indians ex-
cepted,) shall be permitted to mine in any
part of this State, without having first ob-
tained a license so to do according to the
provisions of this Act.

Sec. 2. The Governor shall appoint a
Collector of licenses to foreign miners for
each of the mining counties, and for the
county of San Francisco, who, before en-
tering upon the duties of his office, shall
take the oath required by the Constitution,
and shall give his bond to the State with
at least two good and sufficient sureties,
conditioned for the faithful performance of
his official duties, which bond shall be ap-
proved by the Governor and filed in the
office of the Secretary of State.

Sec. 3. Each Collector of licenses to
foreign miners shall be commissioned by
the Governor.

Sec. 4. It shall be the duty of the Com-
ptroller to cause to be printed and engrav-
ed a sufficient number of licenses, which shall
be numbered consecutively, and shall be
in form following, to wit:

"Number (Date) A. B., a citizen
of _____ years of age, is hereby
licensed to work in the mines of California
for the period of thirty days."

The Comptroller shall countersign each
of such licenses, and shall transfer them to
the Treasurer, keeping an account of the
number so transferred.

Sec. 5. The Treasurer shall sign and
deliver to each Collector of licenses to for-
eign miners so many of the licenses men-
tioned in the preceding section as he shall
deem proper, and shall take his receipt for
the same and charge him therewith. Such
Collector on his receipt shall be liable upon
his bond for the number so furnished him,
either for their return or the amount for
which they may be sold; and the money
collected, as herein provided, shall be
paid into the treasury as prescribed in this
Act.

Sec. 6. Every person required by the
first section of this Act to obtain a license
to mine, shall apply to the Collector of
licenses to foreign miners and take out a
license to mine for which he shall pay the
sum of twenty dollars per month; and
such foreigners may from time to time take
out a new license, at the same rate per
month, until the Governor shall issue his
proclamation announcing the passage of a
law by Congress, regulating the mines of
precious metals in this State.

Sec. 7. If any such foreigner or for-
eigners shall refuse or neglect to take out
such license by the second Monday of May
next, it shall be the duty of the Collector
of licenses to foreign miners of the county
in which such foreigner or foreigners shall
be, to furnish his or their names to the
Sheriff of the county, or to any Deputy
Sheriff, whose duty it shall be to summon
a posse of American citizens, and, if neces-
sary, forcibly prevent him or them from
continuing such mining operations.

Sec. 8. Should such foreigner or for-
eigners, after having been stopped by a
Sheriff or Deputy Sheriff from mining in
one place, seek a new location, and con-
tinue such mining operations, it shall be
deemed a misdemeanor, for which such
offender or offenders shall be arrested as
for a misdemeanor, and he or they shall
be imprisoned for a term not exceeding
three months, and fined not more than one
thousand dollars.

Sec. 9. Any foreigner who may obtain
a license in conformity with the provisions
of this Act, shall be allowed to work the
mines anywhere in this State, under the
same regulations as citizens of the United
States.

Sec. 10. It shall be the duty of each Col-
lector of licenses to foreign miners to keep
a full and complete register of the names
and description of all foreigners taking
out licenses, and a synopsis of all such
licenses, to be returned to the Treasurer.

Sec. 11. Each license, when sold, shall
be endorsed by the Collector selling or is-
suing the same, and shall be in no case
transferable; and the Collector may re-
tain out of the money received for each
license, the sum of three dollars, which
shall be the full amount of his compen-
sation.

Sec. 12. Each Collector of licenses to
foreign miners shall, once in every two
months, and oftener, if called upon by the
Treasurer, proceed to the seat of govern-
ment, settle with the Treasurer, pay over
to that officer all moneys collected from
foreigners not before paid over, and ac-
count with him for the unsold licenses
remaining in his hands.

Sec. 13. If any Collector shall neglect or
refuse to perform his duty as herein pro-
vided, he shall be liable to the Comptroller,
upon receiving a notice thereof from the
Treasurer, to give information thereof
to the District Attorney in whose district
said officer may have been appointed, who
shall bring in action against such Collec-
tor and his sureties upon his bond, before
any court of competent jurisdiction; and
upon recovery had thereon, the said Dis-
trict Attorney shall receive for his services
ten per cent. upon the amount col-
lected, the balance to be paid by him into
the treasury in the manner provided by
law for like payments.

Sec. 14. It shall be the duty of the
Governor, so soon as he shall have been
officially informed of the passage of a law
by the United States Congress, assuming
the control of the mines of the State, to
issue his proclamation, requiring all Collec-
tors of licenses to foreign miners to stop
the issuing of licenses.

Sec. 15. It shall be the duty of the
Governor of State, immediately after the
passage of this Act, to have two thou-
sand copies each, in English and Spanish,
printed and sent to the mining districts
for circulation among the miners, and also
to have the same published for thirty days

whether from San Francisco or from other

which can be reached by water. The dis-
